

DynamoDB Assignment

Problem Statement:

You work for XYZ Corporation. Their application requires a database service that can store data which can be retrieved if required. Implement a suitable service for the same. While migrating, you are asked to perform the following tasks:

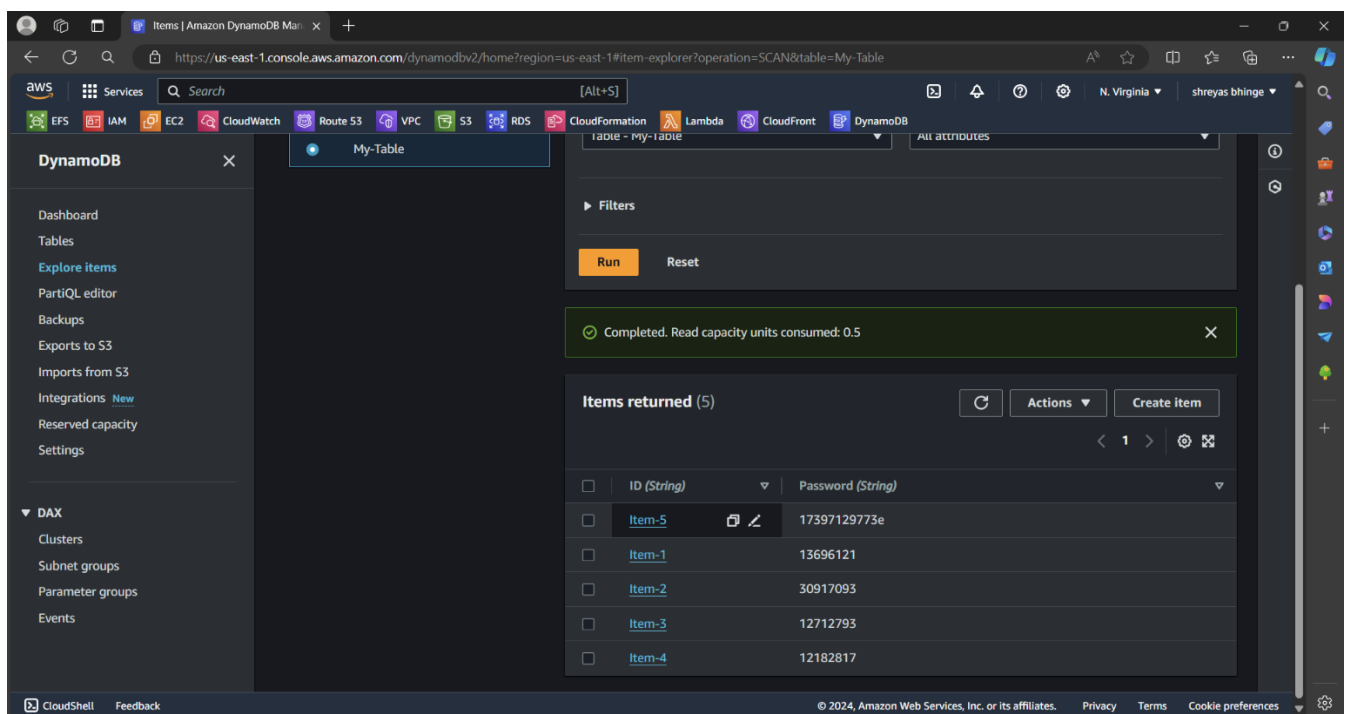

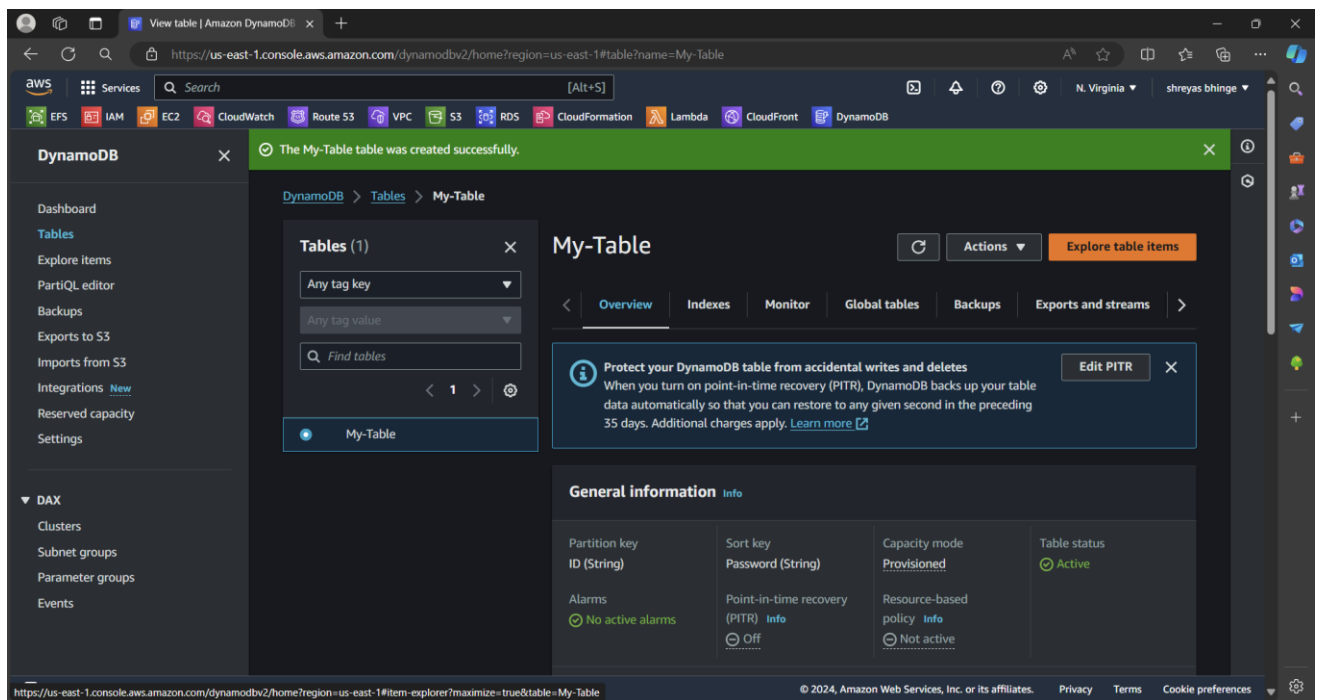

1. Create a DynamoDB table with partition key as ID.
 2. Add 5 items to the DynamoDB table.
 3. Take backup and delete the table.
1. Create a DynamoDB table with partition key as ID.

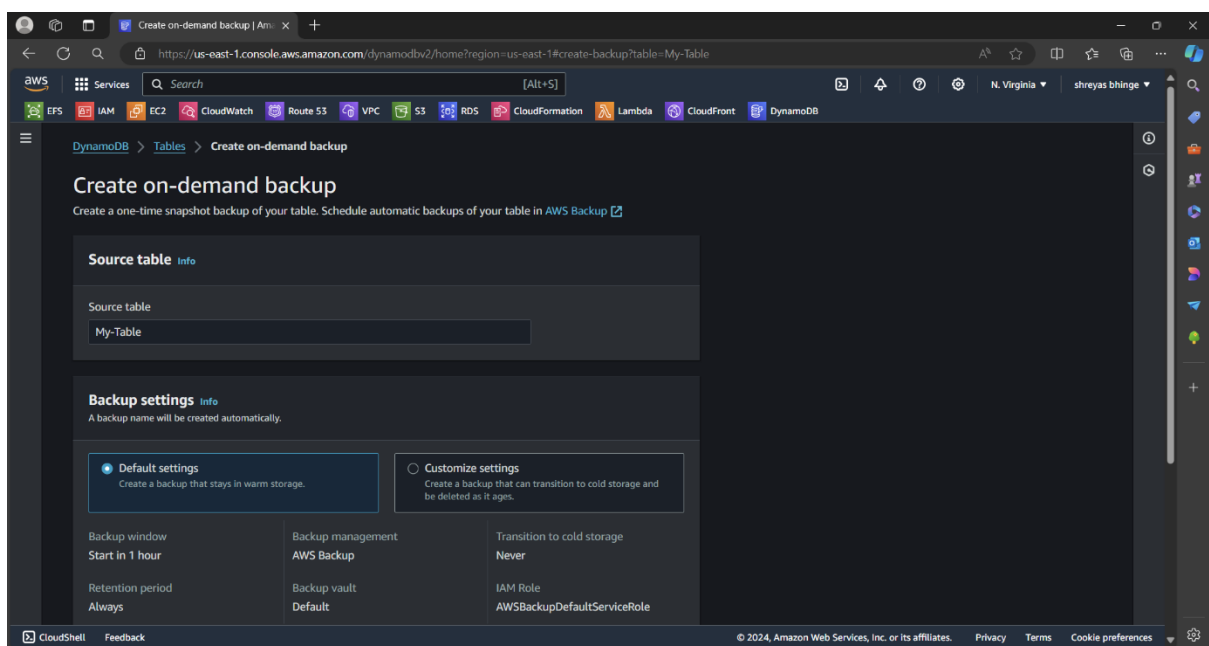

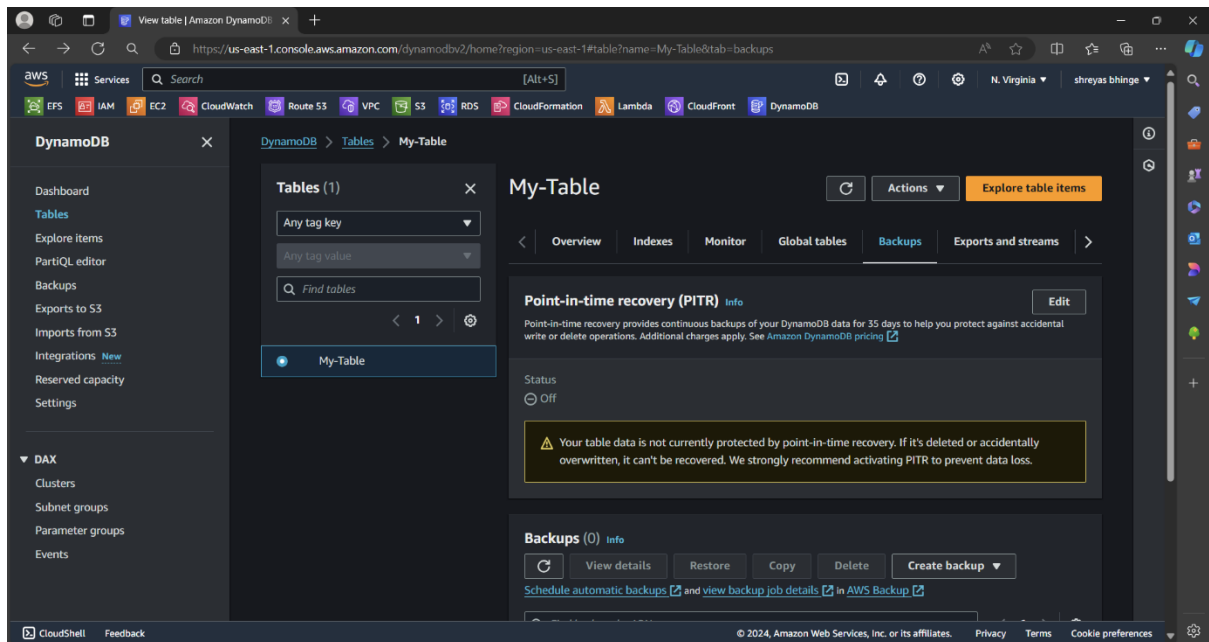

2. Add 5 items to the DynamoDB table.

- Check on Explore Table
- Created 5 items

3. Take backup and delete the table

- Inside Table Go to Back section
- Check on create backup and backup gets created

Deleted the Table
